Selling up

HERRON Pharmaceuticals founder **Euan Murdoch** and wife **Kaye** are selling one of Australia's finest residences with their St Lucia riverfront home going to auction on May 30.

The six-year-old **Noel Robinson**-designed home occupies almost 900 sq m and the Murdochs, who sold

Herron to Sigma for \$123 million in 2003, are selling the joint because they now spend most of their time at their rural property, Nindoinbah.

The price should be a Brisbane record for the year.
